

PERPLEXED DUMBFOUNDED ANNOYED

Or just call Freelin-Wade for worry-free prototypes with no minimums

We're happy to make just what you need, *even if what you need is just one*

Our competitors will tell you that it can't be done. They insist that if you want a prototype, you'll have to buy 3,000 feet of it. Want a special color? How about a coil or a bonded tube? Coextrusion? You don't want to buy the entire plant... you just want to know if the tube is going to work for you.

Give us a call. We won't make you jump through

hoops. We have experts to help you design the perfect tube for your application. You'll see how easy we are to work with... and what we mean by *Worry-Free Plastic Tubing*.
