

CLICK CLICK :-)

www.Freelin-Wade.com

How fast can you find what you want?

Try this on one of our competitor's websites — count the number of clicks it takes you to get to the tube you want. The first thing you'll find out is that most of our competitors don't put all of their tubing on their sites. The next thing you'll notice is that you're lost. What was it you were looking for again? Now try the same test on Freelin-Wade.com.

Start by clicking on the **Find a Tube**. You'll see that we have more than 4,000 products in our database and six buttons to help you narrow things down to the tube that

you need. Click on one of the buttons and make a selection. Do it once or twice more and you've arrived at your tubing, all in just a few seconds. In a few more clicks you're on your way to submitting an RFQ and experiencing our outstanding customer service and fastest in the industry turnaround times.

We really do mean it when we say that nothing should be easier than your plastic tubing.

See us online or give us a call: 888-373-9233

Worry-Free Plastic Tubing
