## **Weld Spatter Resistant Tubing**

eld-Spatter Resistant Tubing is made by taking blue Fre-Thane® 95A durometer polyurethane and jacketing it with a specially formulated weld-spatter resistant cover. The result is a jacketed tube that resists incidental weld spatter contact. The outer cover base resin meets UL94V0 requirements and offers strong insulating properties. It also resists oils, greases, acids, bases, aqueous solutions, ozone, heat-aging and ultraviolet light. The cover is approximately .030" thick and does not adhere to the inner tube, allowing the jacket to be easily skived back for fitting connection with conventional compression or push-in fittings.

Weld-Spatter Resistant

## **Features**

- · Protects tube from incidental weld spatter contact.
- Flexible with an excellent bend radius.
- Resistant to kink damage.
- Broad range of chemical resistance.
- Can be formed into retractable coils.

## **Specifications**

**Temperature Range** -40°F to +165°F

**Vacuum Rating** 

To 28" Hg.

**Diameter Tolerances** ±.005"

**Tube Markings** 

**FW Specs** 

**Working Pressure** 3:1 Safety Factor

**Resin Compliance** Outer Jacket: UL94V0

Inner Tube: UL94HB

Suggested Fittings Push-In, Compression,
